Project Design Phase-II

Data Flow Diagram & User Stories

Project Name: Strategic Product Placement Analysis Using Tableau

Maximum Marks: 4 Marks

Data Flow Diagram (DFD)

A Data Flow Diagram (DFD) visually represents how data moves through the Strategic Product Placement Analysis system. It shows how the user interacts with Tableau dashboards, how retail sales data is processed, stored, and converted into analytical insights and reports.

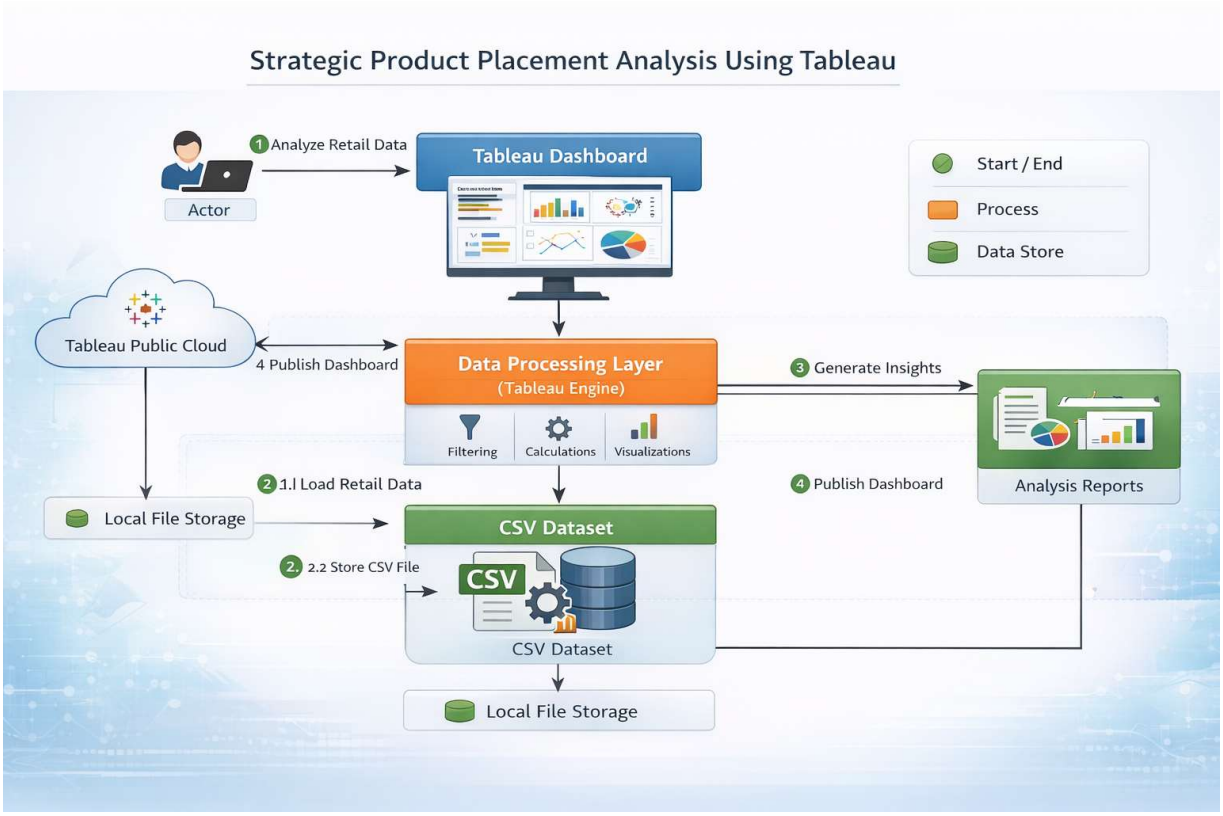

Figure: Data Flow Diagram for Strategic Product Placement Analysis System.

User Stories

The following user stories describe the functional requirements of the Strategic Product Placement Analysis dashboard system.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Business Analyst	Data Analysis	USN-1	As a user, I want to analyze sales by product category so that I can identify high performing categories.	Dashboard shows category wise sales insights	High	Sprint-1
Business Analyst	Product Placement Analysis	USN-2	As a user, I want to compare product placement positions (Front, Aisle, End-cap) so that I can understand their impact on sales.	Dashboard displays sales by placement position	High	Sprint-1
Retail Manager	Pricing Analysis	USN-3	As a user, I want to compare competitor price vs product price to identify pricing gaps.	System displays price difference charts	Medium	Sprint-1
Retail Manager	Promotion Analysis	USN-4	As a user, I want to analyze the impact of promotions on sales performance.	Dashboard shows sales volume with and without promotions	High	Sprint-1

Business Analyst	Customer Insights	USN-5	As a user, I want to analyze consumer segments and their sales contribution.	Consumer segment chart is displayed	Medium	Sprint-2
Administrator	Dashboard Management	USN-6	As an admin, I want to publish dashboards to Tableau Public so users can access insights online.	Dashboard successfully published and accessible	High	Sprint-2
